Aristide Launois

Edinburgh, UK A.Launois@sms.ed.ac.uk

ABOUT ME

I am a hard-working and dedicated person, consistently striving above expectations. I am currently in attendance at the University of Edinburgh, studying Mathematics in my fifth year. Over the course of my degree, I have found that what motivates me most is the process of thinking deeply about mathematical questions that explore structure, identify subtle connections, and pursue clarity in areas where understanding is still developing.

Recently, I have been involved both in collaboration and in independent work on open problems in areas related to my dissertation. Engaging with questions that do not yet have known solutions has been particularly rewarding as it has strengthened my ability to formulate and test ideas rigorously, and communicate effectively within a small research group. These experiences have confirmed my desire to pursue mathematics at a higher level, and I am eager to continue developing as a researcher through a PhD.

EDUCATION

Masters in Mathematics 2026

University of Edinburgh, Edinburgh, Scotland

- ✓ *Degree Classification*: First (predicted)
- ✓ *Dissertation:* Radicals of Ore Extensions (Provisional Title)
  - Supervisor: Dr Agata Smoktunowicz
  - A survey investigating the radicals of Ore extensions.
- ✓ *Bachelor's group project*: Algebraic Coding Theory
  - Supervisor: Dr Agata Smoktunowicz
  - We designed a short course on algebraic coding theory where I focused primarily on the proof of the MacWilliams' identity for which we were awarded a first.

Secondary Education

Simon Langton Grammar School for Boys, Canterbury, United Kingdom

- ✓ *EPQ:* I also completed an Extended Qualification Project on 'A computational analysis of the 4 colour theorem', in which I received an A.
- ✓ *A-Levels*: I received 4 A-Levels, studying Maths, Further Maths, Economics and Computer Science, all at A*.
- ✓ *GCSEs*: I received 11 GCSE's, 3 8's and 8 9's, including English, Maths and Core Sciences.

SKILLS

Computational

- ✓ Python:
  - Completed a handful of python projects using Jupyter notebooks throughout my degree, including a large project for Honours Differential Equations modelling strange attractors, for which I was awarded full marks.
  - Designed a small mathematics quizzing application using a simple SQL database for my Computer Science A-Level final project.

Languages

- ✓ French: Mother tongue
- ✓ English: Native Speaker (all of my education has been undertaken in English)

EXPERIENCE

AESIM "Flavours of Representation Theory" conference participant July 2025
North-Eastern Hill University, Shillong, India

- ✓ Attended short courses on:
- Representation theory of bound quiver algebras (6 hours)
- Representation theory of Lie algebras (6 hours)
- Representation theory of finite Coxeter groups (6 hours)

LMS Summer School July 2025
Online

- ✓ Participated in the summer school including a number of short courses and colloquium talks on various topics including knot theory. (45 hours total)

Math IntroSeries Course 1 June/July 2025
Online

- ✓ Attended a short online course titled "Generalized Weyl Algebras and their Representations" by Professor Samuel Lopes. (5 hours)

Coding Theory Short Talk July 2025
St. Anthony's College, Shillong, India

- ✓ Delivered a short 30 minute talk on the basics of Coding Theory to a group of 50 undergraduate students.

Retail Sales Assistant Jun 2023 - Nov 2023
Edinburgh News, Edinburgh, Scotland

- ✓ Entrusted with a key holder position.
- ✓ Organised the sale and delivery of newspapers on a daily basis.
- ✓ Individually responsible for the entire shop for full days.

HOBBIES

- ✓ I have played piano since I was 6 years old and have achieved a Grade 6 qualification.
- ✓ I am an avid swimmer as well as a water polo player.
